

ELECTRONIC HEALTH RECORDS

Easier than you think

Kareo EHR is designed to be easy so you can be productive.

Kareo's full-featured EHR is simple, intuitive, and won't slow you down. It's designed for you and the way you work so that you can navigate through your day with ease and convenience. Kareo EHR continuously receives kudos from our customers for ease of use.

Increase Productivity

Kareo provides the tools you need to deliver patient care effectively and efficiently. Save time with workflows tailored to your needs.

Smarter Charting

Be present for your patient. Focus on the exam, not the EHR. Efficient and natural design allows you to chart patient visits the way you want with fewer clicks and keystrokes.

Chart, ePrescribe, send lab and imaging orders, and instantly share results right from the record.

Save time with:

- Configurable templates
- Specialty-specific templates
- Customizable shortcuts
- Diagnosis code search by keyword
- Same as last time (SALT) notes

At a Glance

- **ePrescribing**
Help your patients get the medications they need faster.
- **Labs**
Request lab and imaging tests right from your patient's chart.
- **Tasks**
Stay on top of your practice workflows by managing tasks in one central location.
- **Documents**
Embed, annotate, and manage documents and images from anywhere within the EHR.
- **Messaging**
Securely communicate with your patients, providers, and staff right from your EHR.

Integration

A unified administrative, clinical, and financial solution.

When you're using the full Kareo suite: EHR, Practice Management, and Doctorbase, the patient flow is streamlined. Your data follows your workflow, from scheduling, to check-in, to the physician, and to the biller.

Regulation

We are HIPAA, Meaningful Use, DEA compliant and more...

We track it all so you don't have to.

We monitor current program reforms and upcoming policy changes to aid your practice with compliance.

Cloud Based

Helping you stay current in a continuously changing landscape.

Kareo is built using the latest web-based technology and industry-leading security so you can stay on the cutting edge of care. Receive automatic updates with no downtime.

- No lengthy contracts
- No software to download
- No hardware to manage
- No intricate networks to set up
- No costly upgrades

Your EHR is ready to go as soon as you sign up.

Getting started (CSC)

Kareo delivers exceptional support right from the start. Implement quickly with help every step of the way.

Our dedicated Customer Success Coaches (CSCs) will guide you through implementation, data import, and training quickly and easily, so you can start using your cloud-based EHR in less time than you thought possible.

It's better when everything works together

Kareo's integrated suite of products and services make it easier to manage the day-to-day of running your practice so you can focus on what matters most, caring for your patients.
